(ASSOCIATED PRESS TELEGRAM)

Paris, Oct. 27.—Paris today began another 24 hours of waiting for news from the north where the fiercest fighting of the war is now going on. The announcement that the Germans had been unable to make headway after their costly crossing of the Yser canal brought keen satisfaction to the people of the capital owing to the statement that the movements of the enemy in the north had awakened considerable disquietude in the public mind. Official explanation followed this news, to wit, that in an attack particularly violent such affairs were inevitable.

News from Furnes, on the route to Dunkirk, which presumably is the objective of the Germans, tells of the heroism displayed by the Belgians who once more are in the fight against the invaders. The Belgian army withstood the violence of the Germans' cannonade and mass attacks of infantry without flinching. Though the trenches of the Belgians were riddled by machine gun fire, the Germans were unable to cut through the position. The stand maintained by the defenders has created much admiration on the part of the allies. The battle of October 25 was marked by a terrific artillery duel, in which the allies gained some advantage. In the evening the Germans attempted several infantry attacks which brought them on the right bank of the Yser, but all these attempts were repulsed with enormous losses.

Before dying senator Emile Reymond, the president of the national aviation commission, whose machine was brought down by German gun fire last week, dictated a long and clear report of his reconnaissance which was very useful to the French commanders.

Sensor Reymond's death also was the occasion of a feat of arms. His machine had landed between the trenches of the French and the Germans and where the latter were particularly strong. The French had sought for 20 days to dislodge them strategically, a slow and difficult process and costly in men.

When the aeroplane fell the Germans rushed from the trenches and fell upon the machine. Thereupon, the French engaged the Germans in hand to hand fighting which assumed great violence and after some time the allies succeeded in gaining the much wanted position.

Details of German Retreat from Warsaw Given by a Correspondent; Russian Medical Corps' Efficiency

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—In a dispatch from Petrograd the correspondent of Reuters Telegram company gives some details of the retreat from the vicinity of Warsaw.

"The Germans retreated from Warsaw at night, covering over thirty miles on their first march. They left artillery to mark their retreat. The Russians caught up two days later."

"The capture of Lodz, virtually ensures possession of the country for 30 miles to the westward of Warsaw. Along the whole western front, the Russian medical aid worked like clockwork. Trains, motors, vans and carriages were plentiful everywhere. A big lunatic asylum at Turok in the zone of fighting near Warsaw had to be evacuated. A detachment of troops was sent with orders not to use violence. The doctors contrived a long

Children In Flight From Antwerp Toward the Northwest.

This is just one of the thousands of caravans containing women and children and a few household goods that left Antwerp when the German attack on the city became furious. With large bombs from Zeppelins overhead bursting, and the shot of the wonderful 16-inch guns knocking over stone and brick buildings, thousands of families packed their goods and their children into carts and started out of the city over a pontoon bridge.

GERMANS RETREAT; POPULACE ORDERED INTO THE INTERIOR

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—A Petrograd dispatch to Reuters Telegram Company says:

"The army messenger, in summing up the operations on the Russian front says that the German forces in the region of Elawa and Vitzlavsk, disquieted by the situation on the front of Cracow, have retreated in the direction of East Prussia where the population has been ordered to retire into the interior."

REFUGEES LEAVE CALAIS.

London, Oct. 27.—Two thousand refugees from Calais, fearing a German advance have arrived in Havre, says a Reuters Telegram Company despatch from that place. Most of them have been distributed in towns in the center and north of France.

President Wilson Telegraphs Advocate Hearty Endorsement of Mr. Ashbrook

In a personal telegram to the editor of the Advocate, President Woodrow Wilson today heartily endorses the candidacy of Hon. William A. Ashbrook and expresses the hope that the voters of the Seventeenth Congressional district will re-elect him next Tuesday. The president says Mr. Ashbrook's "quality has been tested by his service" and declares that "it is a real pleasure to speak for those who have stood by the cause of the people," as Mr. Ashbrook has done. The president's endorsement of Congressman Ashbrook follows:

The White House,
Washington, Oct. 27.
C. H. Spencer,
Editor Newark Daily Advocate,
Newark, Ohio.
It is a real pleasure to speak for

those who have stood by the cause of the people and manifested

ed in a very practical way their support of just, progressive legislation. Certainly Mr. Ashbrook is one of these. His quality has been tested by his service. It would seem to me little more than justice to him that his constituents should return him to the House, where, with lengthened service, he will be able to give the country the benefit of his quality more and more effectively from month to month.

WOODROW WILSON.
Mr. Ashbrook deserves this compliment and merits the confidence of President Wilson. His record is true. His services to the country and to the Seventeenth district have been intelligent, honest, faithful. Mr. Ashbrook has consistently supported the president and the splendid principles that he represents.

One Hundred Killed In Mine Explosion; Fire Hinders Rescue

(ASSOCIATED PRESS TELEGRAM)
Royallton, Ill., Oct. 27.—One hundred or more miners were killed in a mine near here today when a terrible explosion occurred in the lower level of the mine soon after 300 men had begun work. Of those who

entered the mine, about 100 escaped but thirty bodies were soon brought to the surface and more than 100 other men were known to be imprisoned in a lower level, cut off from rescue by fire. It was thought that all of those shut off by the wall of flame in the interior were burned to death.

Royallton is a mining village 80 miles southeast of St. Louis on the St. Louis, Iron Mountain and Southern railroad.
All the men taken dead from the upper level had been overcome by gas; none had been burned. General Superintendent Mitchell said the men in the lower level had been overcome by the gas before it exploded and that if they regained consciousness the fire resulting from the explosion would prevent their escape.

The blast occurred in the north-west corner of the mine where from 150 to 300 men were working. Men in the southern part of the mine were next to the cages which took them to the surface. This part of the mine was separated from the section where the explosion occurred by thick walls of coal. Three

Reinforcements for the Invaders Seem to be Flowing to Them In a Stream Without Ending, to Take the Places of Thousands Slain at Crossing of the Yser River, The Fiercest Battle Yet Fought In France

ALLIES ALSO REINFORCED OR STRONGLY INTRENCHED

Emperor William Has Ordered Unequivocally That Calais Be Taken, and Germans Are Attempting to Drive Their Forces Like a Ram Through the Opposition—Towns and Villages Along the Path Swept By the Contending Hordes, Are Ruthlessly Destroyed By the Tornado of War.

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 27.—On a miniature scale the status of the opposing armies in upper Belgium rank parallel today to the conditions which prevailed when the German rush toward Paris was checked. The German forward movement has been characterized by an even greater prodigality of men than was shown in the march in the direction of Paris. The invaders succeeded for days in battling their way on and then suddenly came to something which caused them to pause.

Since Saturday no German gain has been recorded and it is apparent that the allies have either brought up such strong reinforcements or entrenched themselves so well or both that the Germans must sacrifice man after man for every foot of ground.

The flat country in west Flanders permits no such entrenchments as made the area of hostilities in France famous, but the British and Belgians with warships at their back have dug themselves in wherever practicable, while throwing out every obstacle possible to impede the enemy.

Whether Germany can drive her forces like a ram through the allied barrier is a task, the result of which should decide the success or failure of her plan to reach Calais, and from there set in motion a long cherished scheme to harass England. On the other hand the failure of the German forces to progress it is maintained by military observers in England probably would mean another retreat.

A statement issued by the official press bureau today indicated how slowly each side must feel its way among the hundreds of little Belgian villages. To go forward without careful reconnoitering would be extremely perilous, as it never is known whether a village is merely occupied by harmless citizens or by armed forces ready to attack.

The admiralty has not yet admitted that the monitors working off the Belgian coast have sustained any damage though the Germans claimed to have reached the vessels with their artillery.

The talk of Zeppelins visiting London has assumed second place

along the speculation as to when the German warships will dart from the heavens and engage the British naval units. Englishmen cannot wait to their own destruction how the Germans are going to do this feat, necessitating as it will, the raising of the gauntlet of the British fleet as well as speeding through a mined area. It makes good food for argument, however, and the newspaper writers build up and tear down the plausibility of the performance in the same article.

The battle on the road to Calais was still undecided today. The territory west of the Yser, the crossing of which cost the German army more men, compared with the area of hostilities than any other single engagement in the war, continued to be the scene of the deadliest of conflicts and although it is said that the flow of German reinforcements seems to be without end. They apparently, judging from news in London, have made no noteworthy advance since reaching the river.

The forces of the allies have been reinforced, a fact which may be due in part to efforts to offset the tide of fresh German troops, and in part to make good the decreased activity of the British fleet which according to German advice has been forced to withdraw further from the coast line by the effective fire of the German artillery. No German ships, aside from submarines has been reported in this vicinity but the London press is daily devoting more space to such a contingency and the tone of all the articles seems to be that the appearance of German warships would be welcomed as promising that sea battle for which the Britons long have been hoping.

Germany has a number of small cruisers at Wilhelmshaven, together with a detachment of destroyers, and the sudden appearance of some of these ships, perhaps accompanied by a battle cruiser, would be no surprise.

Despatches reaching London aver that Emperor William has demanded unequivocally that Calais be taken and a telegram received today quoting the Saxon Gazette gives what purports to be an ambitious plan.

Invasion of England Is Possible If Germans Command Both Coasts Of France and Belgium With Troops

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 27.—The Daily Mail's Bergen correspondent quotes the Saxon Saxon state Gazette for the following statement made by a general Baron Armand von Ardenne who last year was in the adjutant general's office in the war department in Berlin.

"If the English watch on our naval station in the neighborhood of Heligoland is almost impossible now, it will become quite impossible when Belgium and the north coast of France to the mouth of the Seine are in German hands."

"In course of time we shall possess Calais and probably Dieppe and Havre. Our twelve inch howitzers have the large range of fourteen miles and the seventeen inch a still greater range."

artillery surprise. Even if we cannot shoot from the French coast to the English coast, a safety zone can be made for German ships covering more than half the navigable water.

"The French harbors will serve as basis for torpedo boats, submarines, cruisers and Zeppelins and can be made impregnable from the sea by a double or triple row of mines. If this triple field should be laid from the French coast to the English coast then Portsmouth and Plymouth would be cut off from the north sea and connection around Scotland would be difficult."

"The possibility of laying such mines is not doubted as they could be laid under cover of artillery. Our submarine and torpedo division would also come into action. An invasion of England would be easily possible."

England can expect still more possible.

Important to All Women Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, bearing-down feelings, headache and loss of ambition.

Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women.

Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

SHELLS CHURNED GROUND, BURYING MEN BY DOZENS

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—Telegraphing about the fighting in Belgium the correspondent of the Times in Northern France says:

"The enemy's most furious attack along the line of the Yser was at Ypres where a quarter of a million Germans for five critical days, were held back by the British force."

"The artillery fire against the Britishers in the trenches was terrible, churning up the earth and often burying the men by dozens. Repeatedly the enemy's infantry advanced within a few hundred yards but every time our men leaped from the trenches and went at them with the bayonets. The Germans have no relish for a bayonet charge and they fled, firing their rifles over their shoulders as they ran."

"Many hundreds were captured and thousands were killed and wounded. Still their shrapnel rained into the British trenches and fresh infantry took the place of the Germans who had been decimated."

"The situation grew more and more critical and it seemed that the British were likely to be borne down by sheer weight of numbers. Still they held on. Friday came at last and with it needed reinforcements. The position was saved and the Germans fell back fifteen miles."

NEW ZEPPELIN, MOST POWERFUL YET, IN SERVICE

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—A dispatch from Geneva Switzerland to the Express gives this account of the launching of a new Zeppelin:

"The most powerful Zeppelin yet made has just been launched at Friedrichshafen on Lake Constance. Without preliminary trials it flew away northwards at great speed, cheered by the soldiers who shouted 'to London!' Count Zeppelin was at the launching."

"The airship has a special armored compartment for bombs near the propellers and a big gun is mounted in front to destroy aeroplanes. A second airship of a similar type will be ready by the end of October."

"As soon as this new airship—the thirty-first of its kind—is finished, work will be begun on another. More Zeppelins are being built at Dusseldorf, Colmar and Berlin, the German staff desiring that the number be brought to 100 quickly."

Declares Coffee Helps In Making Alcoholics

W. C. T. U. Doctor Says Drunkenness is Often Caused by Children Drinking Tea and Coffee.

In its fight for prohibition the National W. C. T. U. is now considering some of the feeders of the alcohol appetite. Two of the most common of these feeders, almost universally disregarded in this connection, are tea and coffee, avers Dr. Charlotte Abbey, superintendent of the New York Women's Directory of the W. C. T. U.

"Drunkness," says Dr. Abbey, "is the result of the children drinking tea and coffee, by which the nerves are continually stimulated until a craving for something stronger is formed. Children should be taught the danger of this on the grounds, as parents are apt to disregard the importance of it. Tea and coffee are just as harmful to children as alcohol is to grown-ups."

"The thing for the parents to do," says Dr. E. A. Peterson, Medical Director of the Cleveland public schools, "is to keep coffee and tea out of the reach of our little citizens. The most unkind thing a mother can do is to place a cup of coffee before her child."

NOTE.—The rapidly increasing sale of the pure food-drink, INSTANT MOUTH, now extensively used in place of coffee, seems to indicate a very general awakening on the part of the American people to the dangers of coffee drinking.

WINTER

MAY SEE GERMANS STILL OCCUPYING LINE NEAR REIMS

If Reinforced They Can Hold the Point With Aid of Artillery

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—The correspondent of the morning Post, writing from a point near Reims under date of Saturday and discussing the situation in the eastern part of the Aisne valley says:

"It is possible that the Germans intend to hold this line all winter and if they fortify their position it is quite possible they can do so. It is certain they can make no further move forward into French territory."

"Around Reims there is now only one point where the Germans have heavy artillery and this consists of only one big gun and twenty pieces of smaller field artillery. These are all Austrian. This artillery is located near Berru, some distance from the city which, however, is well within the range of the big gun. This gun is a rapidly moving piece pulled by a motor tractor, and contents itself with a shot or two daily."

"The German infantry lines, however, are much further advanced. The German trenches at Betheny run in a long unbroken line around to the right of Cernay. At no point are the French trenches more than a few hundred yards away."

"The Germans have lost no ground since the French recaptured Reims. There is continual sniping from the trenches. The ground between the trenches is thickly covered with barbed wire entanglements."

"Four hundred German prisoners were taken Thursday and brought into Reims. They made the customary German complaints of extreme hunger but the French are beginning to be skeptical as to these complaints for the prisoners bear no signs of famishment."

"The German officers boast that the German strength lies in the superiority of their artillery and the efficiency of their spy system, both of which have been only too well proved during the campaign. The German lines show frequent signs of activity, calling for constant watchfulness in this vicinity."

"In the meantime the artillery duel along the eastern part of the Aisne valley is being continued with great violence. Although the allies seem to hold the advantage, the battle here is far from ended and the strongly fortified positions held by the Germans will call for exceptional measures."

BIGGEST

(Continued from page 1.)
plan of German invasion, once the north coast of France is in their hands.

The towns of West Flanders, over and through which the battle of the coast has been waged, are in ruins. The canals are choked with the dead and the countryside is scarred as if by an earthquake.

That the Germans have not been alone in heavy losses is attested by a despatch declaring that the Belgians lost 10,000 men when they were driven from the banks of the Yser by the invaders.

The biggest of the German guns are now reported to be at Bruges. They apparently are yet to be brought into action, and some of the most terrible stages of the conflict remain to be decided.

There has been no notable change along the battle line in France proper, although the Germans claim that the fate of Verdun will be sealed promptly as soon as their powerful guns get into action.

From near Reims has come a despatch dwelling upon the local indications that the Germans are preparing to hold their positions in that part of the Aisne all winter, although, of course, this will depend largely on the result of the operations to the north.

Most of the claims from the Eastern arena of the war continue to give the upper hand to the Russians, although the Germans are rallying and seeking to stem the Russian rush. It seems to be officially confirmed that Italy has landed forces in Albania and that Greeks also are making their way into this territory.

ONE HUNDRED KILLED

(Continued from page 1.)
hundred and seventy-two men were employed in the mine but about fifty had not entered the shaft.

Up to 11 o'clock the rescue parties were unable to penetrate more than 1500 feet in the workings, but at that hour the rescue car came from Benton, Illinois, with four hours' supply of oxygen. This made possible a further penetration of the rescue parties.

General Superintendent Mitchell said he could not account for the explosion as the mine had been in continuous operation and no gases had been detected.

Lines of hose were carried down two shafts of the mine and attempts were made to direct streams of water on the cross shafts to the burning mine.

The gas made it dangerous for the men to approach close enough to fight the flames effectively. Experts said the fire could be controlled only by sealing both entrances to the shafts and pumping water into the mine until all chambers were flooded. This, however, will not be done

Blood Of Germans Thickened Waters of Yser Canal After Withering Fire From the Allies

(ASSOCIATED PRESS TELEGRAM)
London, Oct. 27.—The correspondent of the Daily Mail in Northern France, telegraphing under date of Sunday night regarding the fighting on the River Yser, says:

There were 2,500 German bodies in the Yser canal this morning after the fighting in the night. Many of them were drowned and others were bayoneted. The very water itself was bloody while Dixmude's streets were strewn thick with the dead.

"These ghastly facts alone give some idea of the savagery of the fighting, the desperation of the German attacks and the stubbornness of the allies' resistance."

"The night was a hell from dark to dawn. At almost every point of the line man was opposed by man, some times at a few hundred yards distance. Face to face men even wrestled and died by drowning each other in the canal's cold waters. The Germans had orders to get through that night, cost what it might."

"An officer of theirs who was captured said that the delay of more than a week in crossing this waterway had incensed the autocratic military mind in Germany. It must be crossed tonight if it costs thousands of men. That in effect was the order given and the German soldiers all credit to them, did their best."

"Probably five thousand of them gave their lives last night. They could not give more, yet they failed, but not because the Germans did not literally obey their orders. They crossed the waterway all right as they were bid, but once brought through they could not make good. They were mowed down with rifle shot, torn into human fragments by shells and bayoneted back, yard by

yard over their own dead into the waters of the canal, into the very gray of the morning. This bloody work went on so fiercely that there was hardly a trench or bridge guard in the whole line that did not imagine that he had been singled out for special attack."

"It is believed that some five thousand Germans crossed the River Yser but hardly one of them got back. Those to the north and northeast of Dixmude, probably two thousand, were met by a fine rally of the Belgian infantry and cavalry, who had tethered their horses and were even by main force, at the bayonet's point, to the river canal and into it. There may have been frantic scenes and the bodies seen in the water on the next day gave grim testimony of this."

"About 3,000 infantry got into Dixmude. They held it for a time but with shell and rifle fire the place was riddled through and through. The Germans dashed out of the crumbling houses only to be wiped out by a srocco of shrapnel and shot in the streets."

"When Sunday morning broke the dead and wounded were everywhere. Dixmude was a cemetery but in the woods not far away the Germans still lingered. They held a position under a desperate fire and eventually were routed. The allies could not oust them and the Germans are still across the Yser."

"Their presence may not be permanent and they may suffer the same fate as has overcome hundreds of their fellows during the week, who got over only to meet their death, but the Belgian and French lines for the time being at least, have been drawn back about this point."

RUSSIAN OFFENSE IS ACCENTUATED IN PARIS REPORT

(ASSOCIATED PRESS TELEGRAM)
Paris, Oct. 27.—The French official announcement given out this afternoon says that spirited fighting continues between the mouth of the Yser and Lens; that in this district the allies have not drawn back and that they have continued to advance in the region between Ypres and Roulers and elsewhere.

The text of the communication follows: "The fighting continues to be particularly spirited between the mouth of the Yser and the region of Lens. In this part of the front the allies have at no point drawn back, and they have continued to make progress in the region between Ypres and Roulers. In the general region between Soissons and Berry au Bac an artillery engagement resulted in our advantage and resulted in the destruction of several batteries of the enemy."

"In the region to the east of Nancy, between the forest of Bezange and the forest of Parroy we have assumed the offensive and driven the enemy across the frontier."

"Russia.—On the river San and to the south of Przemyśl the Russian offensive is becoming more accentuated."

ASSASSIN

SAID TO BE CARRANZA AGENT ATTEMPTS VILLA'S LIFE

Quick Execution of Miscr- ant—Washington Ex- pects First Chief's Resignation.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Texas, Oct. 27.—An attempt has been made to assassinate General Francisco Villa by an agent said to have been paid by General Pablo Gonzalez, General Carranza's staunch supporter, said a message sent to the Associated Press today by Luis Benavides, General Villa's first secretary. The would-be assassin, Francisco I. Mugia, was executed after making a confession before George C. Carothers, the American consular agent.

RESIGNATION WILL BE CONDITIONAL.
(ASSOCIATED PRESS TELEGRAM)
Washington, Oct. 27.—Officials here today expect to hear that the Mexican National convention at Aguas Calientes has accepted the resignation of General Carranza as first chief.

Latest advices to the state department said with the arrival of twenty-eight Zapata delegates there seemed to be no doubt that the Villa faction will be in complete control. Consul Stillman's reports state that among certain conditions under which Carranza will agree to retire, is one that Villa and Zapata similarly retire from power.

It is generally believed here that general Villareal, chairman of the convention will be its choice for provisional president.

Should Carranza insist on all his demands, indications are that the convention may summarily depose him and order the constitutional army to enforce the acts of the convention.

CASCARETS FOR COSTIVE BOWELS, HEADACHE, COLDS

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat which forms uric acid.

When you wake up with the back ache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have Jad Salts is a life-saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray becoming faded, dry, scraggly and thin have a surprise awaiting them because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff goes, scalp itching and falling hair stops.

This is the age of youth. Gray hair, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance with a few days. Agents, Hall's drug store.

OSTEND OVERFLOWS WITH WOUNDED, AS DOES ANTWERP NOW

(Associated Press Telegram)
London, Oct. 27.—Telegraphing from Ostend under date of Sunday, the Daily Mail's correspondent says: "The general opinion is that the allies will soon be in Ostend again. Ostend, like Bruges and Ghent, is overflowing with wounded and Antwerp itself is now filling up. The unceasing flow of wounded men is calculated to destroy the morale of the German troops in Ostend."

"Reports from all sides tell of terrible carnage around about Roulers, where the dead are lying in heaps. On the sea front there the naval shells worked havoc. Carts come and go the day long with wounded. Large farm wagons with their sloping sides are packed with masses of wounded and dying men."

TO PROVIDE FOR CLERGYMEN, NOW SUPERANNUATED

(Associated Press Telegram)
Washington, Oct. 27.—Many Methodists from throughout the country were here for a convention today to inaugurate a campaign to raise \$5,000,000 for superannuated Methodist clergymen. The sessions are to continue until Thursday. The convention was ordered at the last general Methodist conference for the 6,300 incapacitated ministers and widows and children of those deceased.

HEALTHY HAIR SOFT, FLUFFY AND RADIANT

Beautiful hair does not just happen to be so, but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, stringy, lifeless and full of dandruff, Parisian Sage, an inexpensive tonic, sold by all druggists, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. Even dandruff is entirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry or brittle, Parisian Sage immediately removes the cause, and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

Parisian Sage can always be had from T. J. Evans, and is a delightful and easily applied treatment that will never fail to act as a real and lasting benefit to your hair and scalp.

AUSTRIAN REPORT OF SUCCESS IN THE EAST AND WEST

(Associated Press Telegram)
Berlin, Monday, October 26, by Wireless to Sayville, Oct. 27.—An official Austrian war bulletin given out in Berlin today says that combined Austrian and German forces hold strong positions in the long and almost continuous battle line from Stary and Sambor, in Galicia, thence to a point east of Przemyel and along the San river in a straight line to Plozk in Russian Poland.

The main Russian army is being engaged. The Austrian offensive beyond the Carpathians has compelled the Russians to send reinforcements into this territory.

The battle is still raging in central Galicia. Austrian troops have been successful on the lower San river, to the southeast of Przemyel. Vigorous encounters are proceeding between Ivangorod and Warsaw.

ANOTHER FROM VIENNA.
(Associated Press Telegram)
Vienna, Oct. 27, via Rotterdam and London.—An official communication given out here today says: "In the fighting between Ivangorod we have up to the present time captured 8,000 Russians and 19 machine guns."

"Near Jaroslau, a Russian colonel and 200 soldiers were forced to surrender."

"Near Zaluze and in the vicinity of Pasieczna the enemy has been driven back. The situation generally is unchanged."

For Sick Kidneys

Rheuma Dissolves the Poison Choking All the Passages.
Aids the Bowels and Blood in Throwing off All Rheumatism.

If your kidneys are out of order, choked up with poisonous sediment and inflamed from the pressure of sharp uric acid crystals along the walls, your whole system will soon be deranged, for the poison backs up from the urine into the blood and impregnates every corporeal with deadly flint-like particles. Rheumatism easily creeps in and the heart becomes weakened by lack of infusion of healthy blood.

Get a bottle of Rheuma from T. J. Evans, or any druggist, for 50 cents. This standard remedy acts quickly on sick kidneys, constipated bowels, a sleepy liver, and creates fresh healthy blood. Your organs will all be cleaned and put in shape to throw off the poison, and the agencies of rheumatism will quickly disappear.

Most rheumatism remedies weaken the heart because they contain drugs which thin the blood. Rheuma is perfectly harmless, but is guaranteed to give satisfaction.

BAD COLD? FEEL HEADACHY, DULL AND STOPPED UP

Don't stay stuffed-up. Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

GOOD ATTENDANCE AT MEN'S MEETING

A good crowd of men gathered at Taylor Hall Sunday afternoon to hear Attorney A. S. Mitchell on the subject, "What can the Christian Men's Union do for the Non-Christian men of Newark." Mr. Mitchell gave a brief history of the movement from its beginning four years ago, and showed what has been accomplished. Fifty meetings have been held with attendance of approximately 12,000 men. Between four and five hundred dollars had been contributed by the men in the free will offering, and that this amount had been used in bringing good speakers to the city. Among those who have been brought to the city by this organization, are: Dr. Montgomery of Muskingum College, Dr. W. H. Kellogg of Columbus, William Jennings Bryan, Representative Cooper of Youngstown, and many others. The Layman's Missionary Movement and the Lyon evangelistic campaign both received the support of this organization. In connection with the subject, Mr. Mitchell showed how the individual lives of the ones making up this organization, must count in the influence they exert over others. He showed how the attributes of God which are kindness, meekness, willingness to make sacrifices, and a straightforward devotion to duty and principle, should show themselves in every Christian layman.

After the regular address, the Advisory Committee for the ensuing year was nominated by a previously appointed committee and the election confirmed by the body. S. S. Orr presided at the meeting.

REASONS GIVEN FOR DEVASTATION ARE STRATEGIC

(Associated Press Telegram)
London, Oct. 27.—An Amsterdam dispatch to Reuters' Telegram company says: "From Sluis comes a report that the country villages around Roulers are being devastated by the Germans, partly for strategic reasons. Both in the town and outside of them many of the inhabitants have lost their lives through their own imprudence. It is estimated that a thousand inhabitants were killed and that 250 houses have been burned down."

Local Taxation.

Many of the farmers who at first were inclined to criticize the state administration because the assessors were appointed this year instead of elected, realize now that under the new tax system they are saving money and when this fact became apparent hostility to the Warnes law largely disappeared. It would have been unconstitutional to appoint some assessors and elect others and the only way to get the tax dodgers in the cities was to appoint men who would go after the hidden property. The farmers' property in plain view could not escape taxation but it took good work to dig up the millions of dollars of intangible property. By having put over four million dollars more property on the duplicate in Licking county this year the officials with the assistance of the state and county cuts in tax rate have been able to reduce the tax rate in 68 of 78 taxing districts in Licking county. Even the 10 districts whose tax rate is the same or higher than last year are benefitted by the Warnes law for if the state and county levies had not been cut as a result of this new law the rates in those 10 districts would of necessity have been higher than they are. The honest taxpayer whether he lives in the country or in the city need have no fear of the Warnes law and when the farmers come in to pay their taxes this fall they will have substantial proof of its benefits to them through their saving in taxes.

Governor Harmon, in his last message to the General Assembly, paid a tribute to the work of attorney General Hogan that comes to few officials. Every friend of Governor Harmon knows how sparing he was in praise, and a word of commendation from him has great significance. The following is the message:

"It seldom falls to the lot of a public officer to do so much for the interests and good name of the State as the present Attorney General has done. After prolonged litigation and decisions first adverse, he has established the right to recover from bondsmen unlawful gains made by

Mr. Hawkins' Suggestion.

Some time ago Prof. Wilson Hawkins, superintendent of the Newark public schools recommended the training of school boys along agricultural lines, both for the purpose of education and with the object of providing the boys with useful and profitable employment during the vacation period. Prof. Hawkins suggested the purchase or rental of a tract of land convenient of access, this ground to be under the supervision of a practical man who would direct the operation of the work and teach the boys the principles of scientific agriculture. The Newark superintendent's recommendation is brought to mind by the publication of an official bulletin by the Department of the Interior (Washington) at this time. This bulletin says in part:

"With a special appropriation from Congress, the United States Bureau of Education has just begun the work of investigation and promotion of home and school gardens. The new division will be under the direction of a specialist in school gardening and an assistant, both of whom are to be experts in this form of educational activity. Miss Ethel Gowans, a graduate of the New York State College of Agriculture at Ithaca, N. Y., is temporarily in charge of the work. By means of personal visitation, correspondence, and publications it is the plan of the bureau to co-operate with school boards throughout the United States in school and home garden work."

"Eventually it is hoped that every city school will have a teacher employed twelve months in the year who knows gardening both theoretically and practically. During the school year this teacher will give instruction in nature study, elementary science and gardening in the morning and in the afternoon direct the gardens at the homes of the children. During the summer vacation the teacher will devote all the time to directing the garden work."

Professor Hawkins' suggestion was a good one and the fact that practically the same idea is now being presented by the federal government argues in its favor. School gardening will develop habits of industry; an appreciation of the value of money as measured in terms of labor; and a realization that every man and woman must make his or her own living, and contribute to the welfare of the community.

Dr. Claxton, an expert in agricultural problems declares:

"Experiments already have shown that with proper direction an average child can produce in an eighth of an acre of land from \$50 to \$100 worth of vegetables. This would add more to the support of the family than could be purchased with the same child's wages working in factory, shop, or mill. If children can contribute to the families' support while in school, it will make it possible for them to attend school three or four years longer than they now do. This is a thing more and more desirable, since education for life and citizenship can not be obtained before the age of 14."

For twenty years there was not a Democrat on the Supreme Court bench and no Republican paper during that period ever pleaded with its readers to support a member of that party in order to "preserve the partisan balance." Now that the people have made the court responsive and progressive, there arises the hypothetical request to elect three Republican candidates. The answer is that the Democrats have taken the courts out of politics and have provided for the non-partisan election of judges.

O. C. Martin (everybody calls him Carl) has proved to be a most efficient county recorder. Efficiency is the thing most needed in public office for it carries with it attention, duty and honesty. Mr. Martin is a candidate for his second term.

Did you read those tax figures of Hanover township in yesterday's Advocate? Every voter in the Hanover special school district should read and study the facts contained in yesterday's reference to this matter.

John C. Swartz deserves your support for his candidacy for county surveyor.

The standpatters are complaining of the cost of mothers' pensions, aid to the needy blind, help to consumptives. What if it does cost the taxpayers something? Isn't it worth the price? Why, Licking county will pay its share of these increased expenses and at the same time the taxpayers of 68 of 78 taxing districts in the county enjoy a lower tax rate. Let us have these humanitarian laws. Blame Cox with them, if you like. He can stand all criticism the standpatters care to heap upon him. The mass of the people know these laws are just and right.

"Figures won't lie but liars will figure" is an old and somewhat threadbare statement but one can't help thinking of it in seeing the attempt of our esteemed contemporary to convince the people of this county that the Warnes law is an awful thing. It's pretty hard to convince a man that a law which saves him real money is a very bad one and the Warnes law will save money to every honest taxpayer in Licking county. When the people go to pay their December tax they will find it out.

If it hadn't been for the state highway department Licking county would not have received one cent of federal aid in building the new National pike. Yet the Republican state platform declares its opposition to the state highway department and wants each county to build its own roads without state aid. They prefer the crazyquilt plan of operating. Let's proceed on business like lines.

Will H. Miles has been a deputy in the county treasurer's office long enough to become acquainted with the job. He knows how to do the work. He can be trusted. He is a fine, conservative, capable young man who deserves the election that is coming to him next Tuesday.

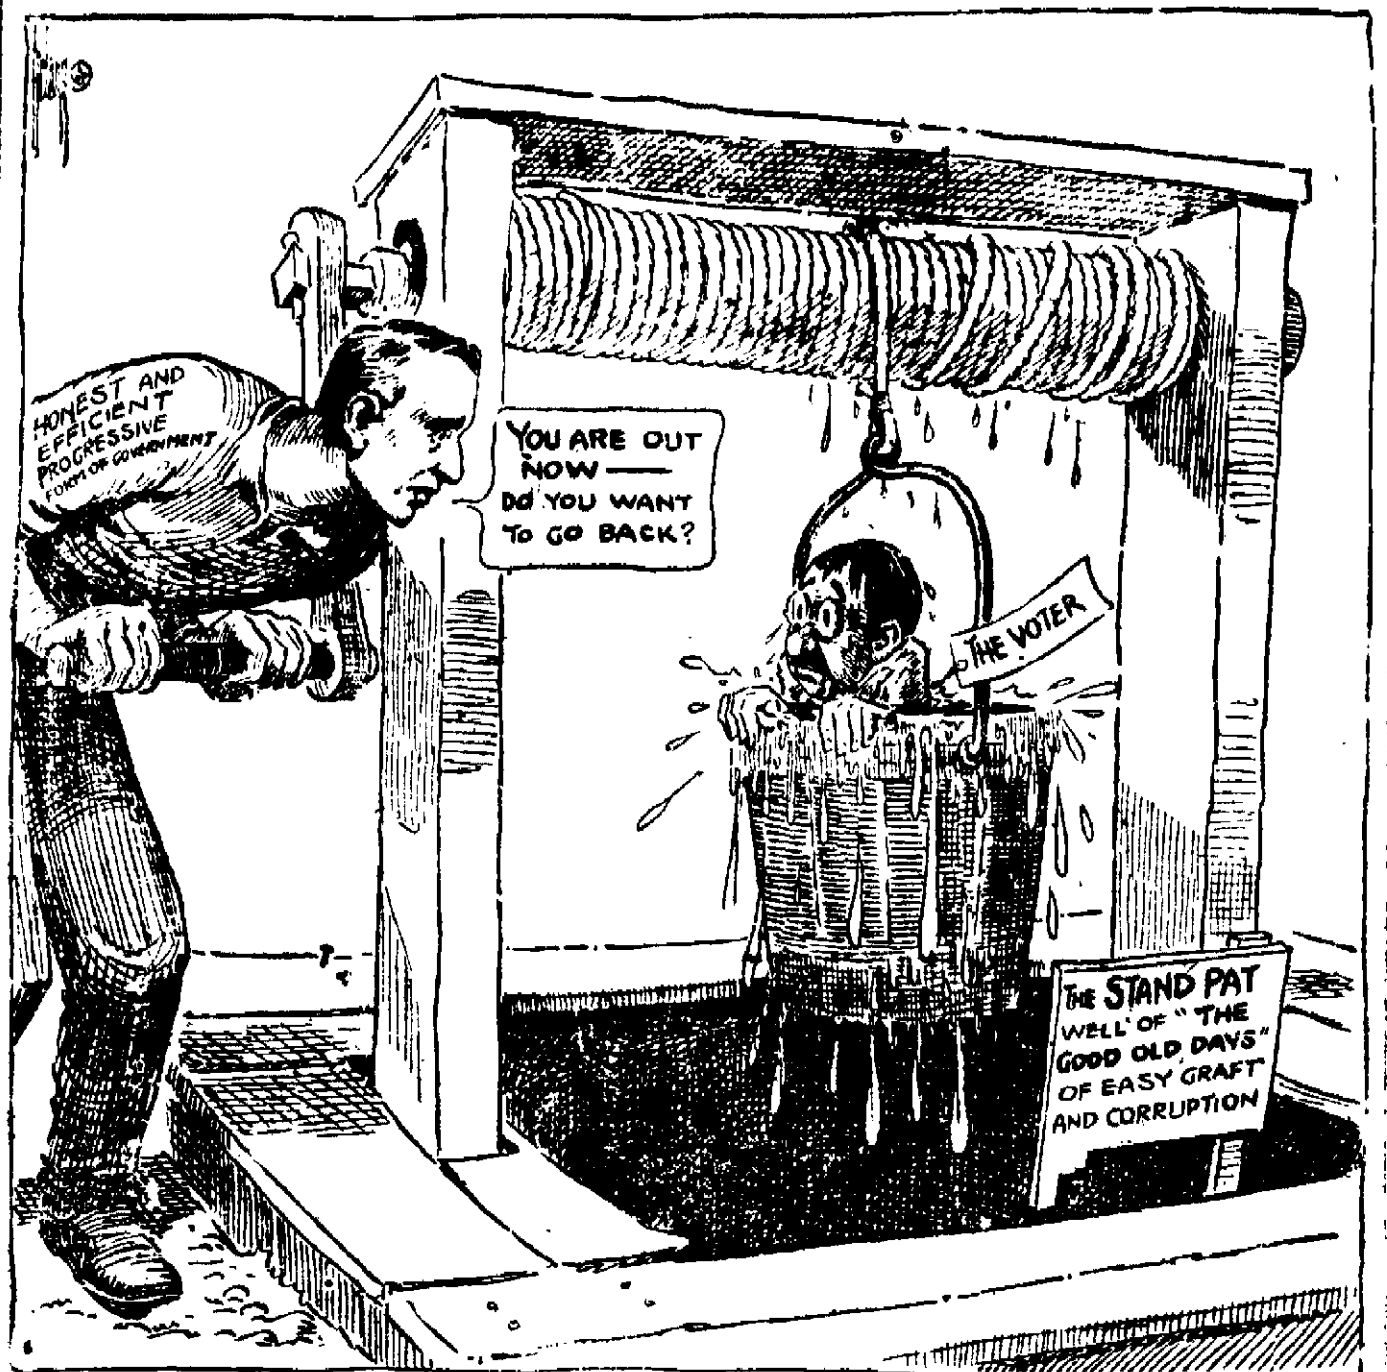

J. H. Miller, the well known Newark attorney, will be a credit to the 15th 16th district at the next session of the legislature. Mr. Miller better known as Henry Miller is the Democratic candidate for Senator.

A. Austin Orr paid James J. Hill a splendid compliment in yesterday's Advocate and in referring to the campaign expressed the hope that all of his friends would support Mr. Hill and the whole ticket.

Ask the workmen what they think of the Workmen's Compulsory Compensation Law. If Governor Cox administration had done nothing more than to pass this one splendid measure he would deserve re-election.

What's become of the early demand of the Republican campaign speakers for the abolition of the State Highway Department?

THINK IT OVER

Great relief came to the people of America from the power of the party of the Trusts when Woodrow Wilson was elected president of these United States in the year 1912. But a great reactionary step toward the restoration of the power of the party of the Trusts would result from the election of Willis, the candidate of that party for Governor of Ohio. For this reason the intelligent people—the fair minded people—the people of humanitarian principles—will elect the representative of the ideals of Woodrow Wilson in the person of James M. Cox to be Governor when they vote on November 3, 1914.

Out of 198 cases Prosecutor Jones has lost three. By his business like methods he has saved Licking county thousands of dollars. Mr. Jones is a candidate for a second term and he deserves to be re-elected.

R. L. Patton will make a good sheriff. He may be relied upon to do his full duty under any and all circumstances. Mr. Patton has been a successful business man and has never held public office.

Bert Horton keeps the records of Clerk of Court in splendid form. Ask the Newark lawyers what they think of Mr. Horton. Vote for Horton Nov. 3.

Vote for Ben Jones, Frank Dumm and J. H. Orr for County Commissioners next Tuesday.

Dr. W. L. Jackson, candidate for coroner will render efficient service.

POLITICS AND WAR.

The land is full of candidates, the smaller ones and heavyweights; what are they telling for? They cannot make the people pay attention to the things they say, unless they talk of war. Our bulwarks and our sweetest boons are valued less than musty prunes, as stories of the day: the tariff and the income tax were both sent groggy to their backs, by rumors of the fray.

In vain the orator utters and tries to fill the voters' ears with tiresome politics; some fellow whispers. "The voters say Russia took a chain of forts, and crossed the river Pivulvay." The whisper travels round the hall; in vain the orator may hawl about the flag that flies; the voters sit around and bet that Russia will be humbled yet, or just contrariwise. Once more the speaker wildly tries to hold the voters' ears and eyes, and yells about the trusts; but at the door a newsboy shrieks, "Oh, wuxtra! Denmark darses the freeks," and then that meeting busts. The voters enter down the aisle and through the door in Maud S. style, an "extra" to obtain; and in the hall, depressed, alone, the orator lets out a groan that's charged with grief and pain.

Spirit of the Press

The U. C. T. Resolution.
To the everlasting credit of the United Commercial Travelers is that resolution adopted by the Dayton U. C. T. organization giving the governor a clean bill of health in connection with an editorial which appeared in the governor's newspapers, and to which the traveling men were reported to have taken such strenuous exception. Whatever unfavorable action the traveling men had previously taken, was the result of a first flush of resentment to which fuel was added by designing politicians, but everyone who knows the high character of the U. C. T. organizations generally, was satisfied that their sense of justice would prevail. Calm after-consideration of the whole matter has shown the governor to be innocent of any offense to the Travelers, and the Dayton members have had the manhood and the backbone to make public declaration to that effect. This should dispose of that incident, with finality, in the minds of all who have any sense of fairness and justice.—Columbus Evening Dispatch.

Use "Gets-It," Corns Shrivels, Vanish!

It's the New Way, and You'll Forget You Ever Had Corns.

"2 drops put on in 2 seconds, corn shrivels, comes clean off!" That's the marvelous story of "GETS-IT," the new-plain corn cure. Nothing can be simpler for the cure of corns—and it

never fails. That's why millions of people are using "GETS-IT" today and throwing away their tussle with sticky tape, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and cause it to pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, files, with their blood-poison dangers. Try "GETS-IT" for that corn, callous, wart or bunion. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

TRAVELERS' CLUB OF GRANVILLE IN STUDY OF SAMOA

MISS BROOKE OF THE CONSERVATORY WILL GIVE FIRST RECITAL WEDNESDAY.

No Cards are Necessary For Admission—Another Dry Speech Scheduled—Village News.

(Special to The Advocate).
Granville, Oct. 27.—Yesterday afternoon found the "Travelers" in mid-ocean, enroute to another of the United States' island possessions—Samoa. A parliamentary drill by Mrs. Lucy Van Kirk had been planned to while away the hours of the voyage, but Mrs. Van Kirk, who is president of the County W. C. T. U., is a busy woman just now, and the drill, therefore, was omitted. Instead, the president, Mrs. W. E. Clemens, called upon several ladies present for brief talks on the topic now engaging public attention in Ohio—the dry campaign. Mrs. E. P. Cook responded, as did Mrs. Christine Cook and Mrs. D. C. Gilmore. Mrs. Anna Campbell's contribution was a recitation entitled, "Poor House 'Nannie.'" Miss Ellen Davies then read a delightful paper on the "Gargasso Sea," that great ocean mystery, said to have been discovered by Columbus on his second voyage to America, extending from Cape St. Rogue to Cape Cod, away off to the east of Florida. Miss Davies had taken great pains in the preparation of this topic, even painting a map on muslin by which the exact location of this strange sea was shown. The superstitions and traditions of dead ships of past centuries which have drifted into this dead place, were touched upon in a most interesting way. Miss Daisy Howe treated a cold subject, "Icebergs," in a thoroughly bright and interesting manner. That menace of the sea lost nothing of beauty, interest, or danger under her deft touch. She prefaced her reading by remarking that the program committee had guarded against the sin of lukewarmness in her case, as the two topics assigned her were "Icebergs" and "Volcanic Eruptions." An invitation was accepted from the Monday Talks to a musical next Monday afternoon in the Second Presbyterian church, Newark, at 4 o'clock.

Miss Brooke, head of the voice department in Denison Conservatory, will give her first recital Wednesday evening, October 28 in Recital Hall at 8 o'clock. Though cards are usually sent to the friends of the college, that fact does not mean that every one who is interested in the conservatory must wait for an invitation. The list is hard to keep up to date. The public is welcome. The card is not the only passport Miss Brooke is an artist, and her song recital promises to be one of the delightful attractions of the whole year.

Mrs. Brumback's Bible class, one of the live organizations of the Baptist Sabbath school, among its many benefactions, last night at its business meeting, voted to give fifteen dollars to the temperance cause.

Make your plans to go to the Granville Opera House next Sunday evening to hear W. Harvey Jones on the live issues of the campaign for the wet and dry amendments. Mr. Jones, who is a prominent attorney of Columbus, is a brilliant speaker as well as a deep thinker, and he will give you something to think about. He belongs to this community, having been born and brought up in the Welsh Hills. So line up, you voters of Granville town, with a whole lot of welcome home—worth a whole lot. It will be well worth your while at the same time.

Mr. and Mrs. C. B. Slack, Mr. and Mrs. T. M. Kier, who motored to Ada last Sunday, are expected home today. Mr. and Mrs. W. A. Donaldson, and Mr. Roe were guests over Sunday at the home of Mrs. Louisa Marlow on Broadway.

For a good many years a lot of people have been fooled in the belief that coffee was good for them—that it was a harmless or even a beneficial drink.

It was only when the scientific research of the medical profession began to lay bare the bones of the coffee skeleton, that people awoke to the fact that much of the Nervousness, Indigestion, Heart Disturbance, Short Breath, Headache, Biliousness, Sleeplessness, etc., were directly due to coffee drinking.

The proof came to these people when they tried the easy test of quitting coffee for a while and used

If you are a coffee drinker and feel aches and ills you can't account for, try the simple experiment for ten days. Then you'll know the way to comfort.

"There's a Reason"

Coffee contains "caffeine" and "tannin," two dangerous drugs that vitally affect nerves, stomach, heart, liver and kidneys. Efforts to eliminate these drugs from the coffee berry, except in part, have proven futile.

Postum made from prime wheat and a small per cent of wholesome molasses, roasted like coffee, and so processed as to create a mild, Java-like flavour, is absolutely pure and free from the coffee drugs, "caffeine" and "tannin" or any other harmful ingredient.

Health Officer Knaus stated that he hoped that prosecution of negligent parents would not be necessary, but that the department must insist that all cases of chickenpox, however mild, be reported to the department.

YOUNG WOMAN IS OVERCOME BY GAS FUMES

Miss Leona Eagan is quite ill at the home of Mrs. Conner in West Locust street, as a result of being overcome by gas fumes early Tuesday morning.

About 5 o'clock Miss Eagan arose and lighted the fire and then returned to bed. She awoke violently ill about 9 o'clock and was able to reach a telephone and call for help. She then fainted and in falling out a gas above the right eye. Dr. Carl Evans was called and found the room filled with fumes and he ordered her bed placed on a back porch and her relatives were administered.

Later she rallied and while ill from the effects of the gas, it is thought she will soon recover. It was necessary to take several stitches to close the wound above the eye.

The fumes collected in the house when the fire under the hot water tank was blown out in the basement. An open radiator carried them to Miss Eagan's room.

Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive but Effective

The prompt and sure remedy for the most annoying cough is a simple home-made remedy. It is made of a few simple ingredients and can be made in 24 hours.

Get 2 1/2 ounces Pin from any drug store and mix with 1/2 pint of water. Add 1/2 ounce of sugar and 1/2 ounce of honey. Mix well and take 1/2 ounce 4 or 5 times a day. You will be cured in 24 hours.

The promptness with which this Pin had cough, chest trouble, hoarseness, or tightness of the throat, thus overcomes a persistent cough, inflammation of phlegm in the throat, thus overcomes a persistent cough.

Pinex is a high-pure extract of pinene, rich in vitamin and over for its splendid whooping cough remedy.

To avoid danger, this ask your drug of Pinex, and if else. A guarantee of Pinex is given with this preparation. Pinex, Wayne, Ind.

Dr. Stull on Suffrage.

Rev. Mr. Stull was greeted by a crowded house Sunday evening at the Fifth Street Baptist church. As had been announced, his subject was "Are We Ready for Woman's Suffrage?" A great host of women were before him. The different unions were ushered to the front to hear the vital question which is now before us discussed by the speaker. We who heard were convinced of one thing in particular. Mr. Stull is ready for woman's suffrage and in a direct, logical and convincing way gave his reasons why—first, second and not to twelve, and yet said he had not covered all the ground. He left no reasonable objection unanswered. The audience was delighted to hear such truths so fearlessly advocated by so able a minister, and felt that the lecture ought to be printed in full as no synopsis can do it justice.

A NURSE TAKES DOCTOR'S ADVICE

And is Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Euphemis, Ohio.—"Because of total ignorance of how to care for myself when verging into womanhood, and from taking cold when going to school, I suffered from a displacement, and each month I had severe pains and nausea which always meant a lay-off from work for two to four days from the time I was 16 years old.

"I went to Kansas to live with my sister and while there a doctor told me of the Pinkham remedies but I did not use them then as my faith in patent medicines was limited. After my sister died I came home to Ohio to live and that has been my home for the last 18 years.

"The Change of Life came when I was 47 years old and about this time I saw my physical condition plainly described in one of your advertisements. Then I began using Lydia E. Pinkham's Vegetable Compound and I cannot tell you or any one the relief it gave me in the first three months. It put me right where I need not lay off every month and during the last 18 years I have not paid out two dollars to a doctor, and have been blessed with excellent health for a woman of my age and I can thank Lydia E. Pinkham's Vegetable Compound for it.

"Since the Change of Life is over I have been a maternity nurse and being wholly self-supporting I cannot over estimate the value of good health. I have now earned a comfortable little home just by sewing and nursing. I have recommended the Compound to many with good results, as it is excellent to take before and after childbirth."—Miss EVELYN ADELIA STEWART, Euphemis, Ohio.

VERY FEW

WERE PRESENT TO HEAR NOTED REPUBLICAN SPEAKERS ON ISSUES OF CAMPAIGN

High School Auditorium Scarcely One-Half Full—Waltermire and Harding Speakers.

If the Harding-Waltermire Republican meeting of Monday evening can be cited as a criterion of the lack of enthusiasm displayed by the lacking county Republicans, then the old time Democratic majority in the county will be rolled up as usual.

The Republican meeting of Monday night had been extensively advertised through the press and by poster all over the city and vicinity. A band of musicians met the speakers and the parade was formed to march to the high school auditorium. By actual count there were just twenty-three men in line. The band rendered a couple of selections at the auditorium and after waiting for some length for the crowd which failed to materialize, the meeting was called to order by Attorney Link Russell.

According to the prominence of the speakers the house should have been packed but it was scarcely one-third full. This could not be blamed on the rain as could the small audience present at the Republican meeting Saturday evening. It is simply evidence of the fact that the Democratic state and county administrations are giving perfect satisfaction to the people and spell binders are no attraction to them when in that mood.

Attorney Russell introduced C. W. Montgomery as the chairman of the evening and that gentleman made a splendid presiding official introducing Mr. Beecher, Waltermire, the first speaker of the evening in a flowery manner that proved the Newark attorney to be perfectly at home as a platform orator, while expounding Republican principles. Mr. Waltermire is a former mayor of Findlay, Ohio, a well known author of rhymes and Indian lore of Northwestern Ohio, and former candidate for lieutenant governor on the Republican ticket in 1912 when Governor Cox defeated him by a plurality of over 166,000. That is why possible Mr. Waltermire was so bitter in his denunciation of Gov. Cox. The sting of such bitter defeat is not easily forgotten. Mr. Waltermire's talk was simply one of abuse, and as a vote maker undoubtedly was a failure. He touched on state issues only and attempted to ridicule the department of Attorney General Hogan but the effort fell flat.

Chairman Montgomery next introduced Warren G. Harding of Marion, the next Republican senator from Ohio, he neglected to add, however, that it would be this year. Mr. Harding is editor of the Marion Star, has served as lieutenant-governor of Ohio, was defeated for governor by Judson Harmon and this year is his party's choice for United States senator. He has a reputation of being one of Ohio's silver tongued orators but his efforts of Monday evening were confined to the tariff question alone and at no time did he attempt an oratorical effort preferring evidently to give a heart to heart talk to his auditors.

He prefaced his talk by paying a pretty compliment to Newark stating that for the last twenty years he had been interested in the city's progress and that this evening as he was driving through the streets he happened to look up to one of the tall buildings, attracted by a brilliant light, and there he saw a large electric sign which read "Trade in Newark." He was a firm believer in that motto and he would take for his text of the evening "Trade in the United States." He then launched into a discussion of the tariff question and endeavored by his statement to show that the policy of the present administration was responsible for all the ills of government even to the high cost of living. The speaker concluded his argument shortly before ten o'clock and the meeting adjourned.

BASKETBALL SCHEDULE FOR OLD DENISON

Granville, O., Oct. 27.—The championship basketball team of Denison will find its work cut out for it, according to the official schedule which Graduate Manager Coons has just announced:

January 8—Kenyon at Granville.

January 16—Ohio university at Granville.

January 23—St. Mary's at Dayton.

January 30—Ohio Wesleyan at Granville.

February 1—Oberlin at Granville.

February 5—Cincinnati at Cincinnati.

February 6—Miami at Oxford.

February 12—Miami at Granville.

February 20—Western Reserve at Granville.

February 27—Ohio Wesleyan at Delaware.

March 6—Oberlin at Oberlin.

March 13—Open at Granville.

The Big Red team has lost two valuable men by graduation. Black and Prouty but Coach Livingston will have back Captain Jones.

Reese, Thiele, Biggs and Roubush of last year's team. Rupp, who used to play a whirlwind game with Doane academy, will undoubtedly find a place on this 1915 Denison team, which now gives promise of being of championship caliber.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT DANDERINE

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it

through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

700,000 OHIO WOMEN WANT FRANCHISE RIGHT

The opponents of woman suffrage in Ohio have used as one of their arguments the statement that only a minority of Ohio women wish to vote. Florence E. Allen, who has probably covered the State more thoroughly than any other campaign worker disposes of this time-worn argument most effectively. She says:

"The anti-suffragists are circulating a statement that only ten per cent of the Ohio women want the ballot. The other day I asked a prominent anti-suffragist what was her authority for that statement, and she answered that the figures were taken from the suffragists. She said: 'We asked them how many women wanted to vote. The number they gave us was two per cent, and we multiplied it by five to be generous.'

"I do not know from what suffrage organization these figures of two per cent were taken. We have never received in our office at Warren any communication asking how many women were recorded on our books as in favor of suffrage. As a matter of fact, we had on record in this state at the beginning of this year, over three hundred thousand women asking for the ballot. And furthermore since that time we have been making a house-to-house canvass, which shows a marvelous movement for woman suffrage. Our girls go from house to house in the small towns. In Wayne county, for instance, we covered eleven towns besides Coshocton. Our workers covered twenty-one small towns besides Coshocton. Our workers go from house to house and ask the women whether they want suffrage, and put down the names of the women who will give them. There are a large number of women who favor suffrage who refuse to give their names. And yet in sixteen counties, only three of which carried for suffrage."

The Better Way.
"So you have decided to forget all party grievances and forgive your enemies."

frage, we find that two-thirds of the women give their names and less than one-fourth of one per cent are opposed. We have reports like this every night, that out of thirty-five women asked to sign, thirty-three did, and out of forty asked, thirty-three did. It is unusual to have more than one opposed among twenty asked for their opinion.

"It is my conclusion, based on this straw vote taken by us in sixteen counties, most of which voted against suffrage in 1912, that 700,000 women in Ohio want the ballot. I make that statement publicly and I am prepared to back it up out of my personal investigation, corroborated by that of my collaborators in the campaign field."

BATCHES

OF GERMANS KILLED IN THEIR FEROCEOUS ATTEMPTS TO CROSS THE YNER

Seven Different Onslaughts Were Repulsed With Bayonets in Allies' Hands.

[Associated Press Telegram] London, Oct. 27.—The Daily Mail's correspondent near the Yser river, under date of Sunday, dilating on the ferocity of the German attempt to get across the river, says: "In one night, Friday, between midnight and dawn, seven different onslaughts were repulsed. Swarms of Germans rushed up with newly made bridges of wood. They were dropped across the canal and notwithstanding the deadly fire from rifles the Germans burst across. There was no stopping them.

"This sort of thing has happened day after day but in the daylight that followed each night these marauders were hunted down and mowed to the ground. Great batches were killed, crowds were taken prisoners, but that mattered nothing. The next night was sure to bring along more attacks of the same kind.

"The bloodiness and fierceness of the fighting is evident from the number of men on both sides suffering from bayonet wounds. The geographical position of the fight does not alter much but the Belgians are putting in an immense amount of work.

"The German reinforcements seem never to cease. They come fresh to the attack day after day and trains and trains of wounded have been taken away but the German force remains more numerous than ever. They seem ready to put every man here rather than give way. Their determination and force must not be underestimated."

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how I may find a complete cure without operation, if you write to me, Eugene M. Pullen, Carpenter, 277-A Marcellus avenue, Manassas, N. J. Better cut out this notice and show it to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

ELECTRICITY IS CHEAP

AND TO PROVE IT TO YOUR OWN SATISFACTION WE ASK YOU TO READ THE FOLLOWING WHICH WAS COMPILED FROM OUR OWN RECORDS ON ONE THOUSAND RESIDENCE CONSUMERS

THE FOLLOWING TABLE WILL SHOW JUST WHAT THESE 1000 RESIDENCES USED FOR SEPTEMBER, 1914:

303	75	51	57	83	86	101	57	59	67	48	15
50c to 60c	60c to 70c	70c to 80c	80c to 90c	90c to \$1.00	\$1.00 to \$1.25	\$1.25 to \$1.50	\$1.50 to \$1.75	\$1.75 to \$2.00	\$2.00 to \$3.00	\$3.00 to \$5.00	\$5.00 or over

A great number of the above consumers are using electric irons, toasters, vacuum cleaners and other appliances, and we believe it shows conclusively that the use of electricity is an economic necessity at the price of electricity today—with our low price on house wiring—giving you seven months in which to pay for it, no one can afford to be without electricity.

HOW RESINOL CLEARS AWAY UGLY PIMPLES

It is so easy to get rid of pimples and blackheads with Resinol, and it costs so little, too, that anyone whose face is disfigured by these pests is foolish to keep on with useless cosmetics, or complicated "beauty treatments." See how simply it is done:

Wash your face for several minutes with Resinol Soap and hot water, then apply a little Resinol Ointment very gently. Let this stay on ten minutes, and wash off with Resinol Soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, leaving the complexion clear and velvety.

Resinol stops itching instantly and speedily heals skin tumors. Resinol Ointment and Soap sold by all druggists. For free trial size, write Dept. KK, Resinol, Baltimore, Md.

"Miss Gene Gauntier" at the Auditorium Tomorrow.

Miss Gene Gauntier will be seen at the Auditorium Theatre tomorrow in a three reel feature photo-drama entitled "The Light for a Birthright." A fascinating photo-production based upon the story of a woman that results in a midnight marriage.

Gene Gauntier in this photo-drama plays a bit role. If you love good acting, do not miss this production. Miss Gauntier in preparation for this film play spent weeks in New York's ghetto studying various types of this gripping play. Her characterizations are perfect.

Auditorium Theatre Tomorrow.

The program of photo-plays at the Auditorium Theatre for tomorrow is excellent. Miss "Dot" Farley is featured in a three reel photo-drama of the west with a flavor of comedy. A new type of western drama that you must see.

The Albuquerque Film Manufacturing company, who feature Miss "Dot" Farley, has produced some wonderful pictures for Warner's Feature Inc., but it can be safely said they never made a more entertaining or thrilling story than "The Unwritten Justice."

It is a story of startling climax, absorbing heart-interest and intensely realistic situations. The characters do not merely move across the screen; they live their parts with great dramatic effect.

"Atlantis" at the Auditorium Theatre Friday and Saturday, October 30 and 31.

Unusual interest is being manifested among local theatre-goers in the presentation of the photo-spectacle, "Atlantis" at the Auditorium Theatre, Friday and Saturday, Oct. 30 and 31.

Adapted from the novel by the popular German author, Gerhart Hauptmann this photo-play possesses unusual qualities. Besides an absorbing story it presents scenes from many different lands and was produced on a scale of massive grandeur. The shipwreck scene, showing a gigantic liner actually sinking in midocean, is a marvel in

Novel Massage Cream

Perfect Skin Food That Removes Wrinkles and Clears Complexion.

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara and when this pure skin cream is used, pimples are soon a thing of the past.

As a massage cream or after shaving it is unequalled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the soft skin that comes off.

Hokara is the only antiseptic massage cream, and pimples, eczema and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage creams and sold on a guarantee of "if you ever used it, you'll be back," yet the price is a trifle, only 25c for a liberal jar; larger size \$1.00.

Sold on a guarantee by Evans' Drug Store.

WORDS OF WISDOM

Beer is a healthful beverage! Some claim it is a stimulant—all right—let it go at that. So are tea and coffee.

Almost every form of man's enjoyment and pleasure is capable of misuse. The proper and improper use of a thing make all the difference in the world. Should we try to prevent the drinking of tea or coffee because a few overdo the thing? The majority of men who use beer use it properly. Should we try to prevent these men from getting what they want?

Beer has always been regarded as a popular beverage, pleasing to the taste and refreshing, and as a health giving food. It is a powerful aid to the digestion of starchy foods and a nutriment and tonic for the sick and convalescent. It is prescribed by physicians with good results.

Millions of workmen have found in Beer a food product, as well as a cheap, healthful stimulant that does not create an appetite for stronger liquors.

When you drink beer, call for

The Advocate invites its readers living in these taxing districts to call on the county treasurer or county auditor for verification of these figures and statements. The figures are taken at random from the tax records. They show the general condition that prevails over the county. Do not be deceived by the false claims of the opposition. If you are in doubt as to the truth of the fact that the Warnes law actually saves money to the honest taxpayers, verify the figures at the court house yourselves. The people of Licking county have been greatly benefitted by the Warnes tax law and they will all know it when they pay their taxes in December.

BREAD AND WATER FOR TWO REGULARS

Failing by use of ordinary methods to stop the regular visits of James Bennett and Martin Cosgrove to police court, Mayor Bigbee Tuesday morning decided on a new effort to make them tired of the hospitality of the city. Both were charged with drunk and begging. Fines of \$5 and costs were assessed and the men ordered committed to the city prison on a bread and water diet during the two weeks they are kept in jail. A dozen defendants charged with train riding, loitering and intoxication were fined.

JUDGE DENOUNCES LIQUOR CLUBS IN COURT DECISION

Municipal Judge Fricke of Cincinnati, in assessing a fine against W. C. Scott, the head of the Standard Social Pleasure and Outing club, declared that "in the opinion of this court the entire club idea as it relates to the distribution of liquor is a subterfuge from start to finish. He fined Scott \$400 and costs for distributing liquor on Sunday and with furnishing liquor without a license. Scott appealed the case."

ENDORSEMENT OF Y. M. C. A. WORK BY PRESIDENT WILSON

At the celebration of the 50th anniversary of the founding of the Young Men's Christian Association, held in Pittsburgh last Saturday, President Wilson spoke in part as follows:

"I am interested in this association because it is intended to bring young men together before any crust has formed over them, before they have been hardened to any particular occupation, before they have caught an inveterate point of view, when they have the searchlight they can swing and see what it reveals of all the circumstances of the hidden world, and I am more interested in it because it is an association of young men who are Christians."

"I wonder if we attach sufficient importance to Christianity as a mere instrumentality in the life of mankind. My advice is, don't think about your character. If you think about what you ought to do for other people, your character will take care of itself. The only way your powers can become great is by exerting them outside the circle of your own narrow, special, selfish interests. And that is the lesson of Christianity. No man is a true Christian who does not think constantly of how he can lift his brother, how he can assist his friend, how he can enlighten mankind, how he can make virtue the rule of conduct in the circle in which he lives. An Association of Christian young men is an Association meant to put its shoulders under the world and lift. Young men are strong. Christian young men are strongest kind of young men, and when they associate themselves together they have an incomparable strength of organization."

"The Young Men's Christian Association has become a great instrumentality that comes to all churches; a common instrument for sending the light of Christianity out into the world in its most practical form. The principle of the Association is to make a place where the atmosphere makes the great ideals contagious. That is the reason that I say that you can test a modern community by the degree of its interest in its Young Men's Christian Association. You can test whether it knows the road it wants to travel or not; you can test whether it is deeply interested in the spiritual and essential prosperity of its rising generation. I don't know of any test that can be more conclusively put to a community than that."

"Now I want to suggest to the young men of this association that it is the duty of young men not only to combine for the things that are good, but to combine for the militant spirit. How tired I am of the men who are merely on the defensive, of the man whose virtue is selfish because it is merely self protecting, and how much I wish that men by the hundred thousand might volunteer to go out and seek the adversary and subdue him."

"The life of society, the life of the world, has constantly to be fed from the bottom. It has to be fed by those great sources of strength which are constantly rising in new generations. Red blood has to be pumped into it, new fiber has to be supplied. That is the reason I have always said that I believed in popular institutions. The beauty of popular institutions is that you don't know where the man is going to come from, and you don't care so long as he is the right man."

"There is a constant surging up of new strength, unnamed, unrecognized, uncatalogued men, who are just getting into the running, who are just coming up from the masses of the unrecognized multitude. You don't know when you will see upon the level of the masses of the crowd, some great stature lifted head and shoulders above the rest, shouldering its way, not violently, but gently to the front, saying, 'Here am I, follow me.' And his voice will be your voice, his thought will be your thought, and you will follow him as though you were following the best things in yourselves."

"And so, when I think of an Association of young men, I wonder that

it has not already turned the world upside down. I wonder not that it has done so much, for it has done a great deal, but that it has done so little. I can only conjecture that it does not know its own strength, that it has not yet got its pace. I do not believe that at 70 it has just reached its majority, and from this time on a dream greater even than that George Williams ever dreamed will be realized in the great accumulating momentum of Christian young men throughout the world. I am hoping that these seventy years have just been a running start, and that now there will be a great rush of Christian principles upon the stronghold of evil and of wrong in the world."

"I believe in the Young Men's Christian Association, because I believe in the progress of moral ideas in the world, and I don't know that I am sure of anything else. There is a text in the scripture that has always interested me very profoundly. It says, 'Godliness is profitable in this life as well as in the life to come.' If you don't start it in this life it won't reach the life that is to come. Your measurements, your directions, your momentum has to be established before you reach the next world, and this world is intended as the place in which we should show that we know how to grow in stature of manliness and in righteousness. And so I have come here to big Godspeed to the good work of the Young Men's Christian Association."

"I love to think of the gathering forces of such things as these in the generation to come. No man can look at the past of the history of the world, without seeing a vision of the future of this world, and when you think of the accumulated moral forces that have made one age better than another age in the progress of mankind, then you can open your eyes to the vision."

"You can see that age by age, though it is a blind struggle in the out of the road, though often mistaking the path and losing its way in the mire, mankind is, yet sometimes with bloody hands, a better man, nevertheless, struggling step after step up the slow stages to the day when he
